1. Introduction

Acme.erp is a comprehensive accounting solution for acquiring, organizing and managing the organization's financial transactions and accounting related information. Following are the features of Acme.erp:

- Finance
- Statutory
- Asset
- Stock
- Payroll

This user manual gives you an overview of working with Asset feature. Asset is a resource which is owned by organization/company. The asset has future economic value which can be measured in terms of money.

Following are the common assets: *Building, Fixtures and Fittings, Furniture, Home Appliances, Land, Office Equipments, Other Tangible Assets, Other Tangible Assets, Plant & Machinery, Software-Cash, Land, Vehicle, Equipment, etc.*

Following is the flow of maintaining asset details in Acme.erp:

- Master Creation
- Make Transactions
- Report generation

2. Module Common Operations

The common operations are the functionalities generic to all the menus of Acme.erp. Explaining the common operations in a single place helps in avoiding the repetition of content in all the topics.

To add record:

1. Click  to insert new record.
2. Enter the required details.
3. Click **Save** to save the details. (Or)
Click **Close** to prevent from adding details.

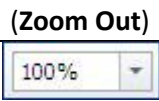

To edit record:

1. Select the record and click  to modify the details. (Or)
Double-click on the record to edit.
2. Make the necessary changes.
3. Click **Save** to update the changes. (Or)
Click **Close** to prevent from updating changes.

To delete record:

1. Select the record and click  to remove the record from the list.
The confirmation message appears.
2. Click **Yes** to confirm the deletion. (Or)
Click **No** to prevent from deleting the detail.

To print records:

Icon	Usage
 (Customise)	To customise details and page to print
 (Search)	To search for data
 (Print)	To print the details in a specified file format
 (Open)	To open a document to preview
 (Save)	To save the document
 (Quick Print)	To print the details
 (Page Setup)	To set orientation, size and margins of the page
 (Zoom Out)	To have the distant view of the details
 (Zoom)	To have the specific view of the details
 (Zoom In)	To have the closest view of the details
 (First Page)	To go to the first page of the details
 (Previous Page)	To go to the previous page of the details
 (Next Page)	To go to the next page of the details
 (Last Page)	To go to the last page of the details
 (Export Document)	To export the details in the following file formats: PDF File, HTML File, MHT File, RTF File, XLS File, XLSX File, CSV File, Text File and Image Files
 (Refresh)	To refresh the window
 (Exit)	To close the window

To refresh records:

- Click  (**Refresh**) to refresh any window.

To close window or dialog box:

- Click  or  (**Close**) to exit any window or dialog box.

To filter record:

1. Select **Show Filter** or click **Ctrl + F** in the respective window or dialog box.

A row appears on top to filter the details.

2. Enter the text in the row.

The records are displayed based on the text you entered

3. Masters

Masters are the data used commonly in the application. Master Creation like Asset Class, Asset Items, Insurance Plan, Vendor, Manufacturer, Custodian, Block, Location and UoM (Unit of Measure) are essential to record asset item transactions.

3.1. Asset Class

Asset Class is a classification of asset items. Classification is done based on some common behaviour of the asset items. Grouping items allows you to locate the asset items easily.

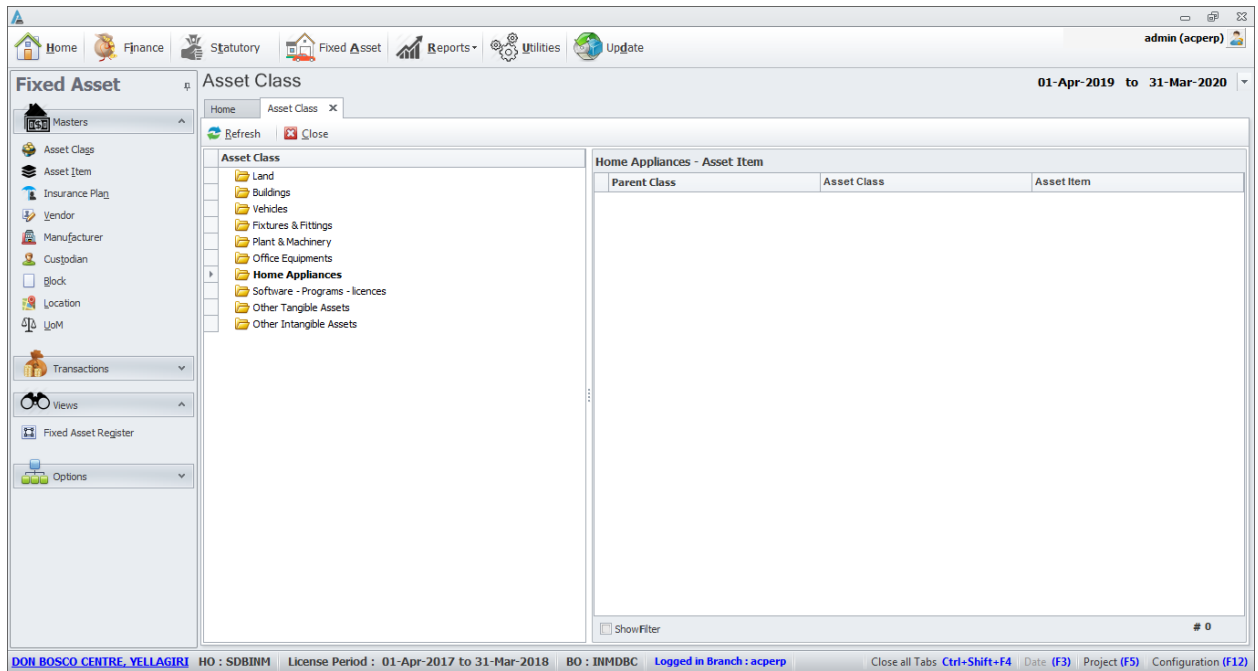

These Asset Class is fixed at the Portal and the user can download the defined asset classes from portal to use in the Branch Office.

To create asset sub class:

1. Click **Fixed Asset** menu.
2. In the left pane, under **Masters**, click  to expand *Masters* options.

3. Click **Asset Class**.

The *Asset Class* view screen is displayed.

3.2. Asset Items

Asset items are goods that you sell, purchase or receive. Asset Item is created under an asset class. The details and history like insurance, maintenance, and service are maintained for an asset item.

To add asset item:

1. Click **Fixed Asset** menu.
2. In the left pane, under **Masters**, click  to expand *Masters* options.

- Click **Asset Item**.

The *Asset Item* view screen is displayed.

Asset ID	Block	Location	Custodian	Amount	Type	Status
011	PDH	GROUND	China	3000.00	O/P	ACTIVE
012	PDH	GROUND	China	2000.00	O/P	ACTIVE
013	PDH	GROUND	China	200.00	O/P	ACTIVE
014	PDH	GROUND	China	10.00	O/P	ACTIVE
015	PDH	GROUND	China	10.00	O/P	ACTIVE

- Click  **Add** in the *Asset Item* view screen.

The *Asset Item* dialog box is displayed.

Asset Item (Add)

Note: The fields which are marked in * red are mandatory.

- Select **Asset Class** from the list.

Tip: Click  to add new asset Group.

6. Type **Asset Item** in the box.

7. Select **Asset ID Generation** as **Automatic** or **Manual**.

a. If **Automatic** is selected, following fields, Starting No, Prefix and Suffix are enabled.

b. If **Manual** is selected, all the above fields are disabled. (Refer

8. Select **UoM** from the list.

Tip: Click  to add new UoM.

9. Type **Starting No, Prefix, Suffix, Retention Yrs** and **Depreciation Yrs** in the respective boxes.

10. Select **Method** from the list.

Note: Method of two types as Automatic and Manual. Automatic: If Automatic is selected, the asset id is generated automatically. Manual: If manual is selected, the asset id has to be entered manually.

11. Under *Map To*, select **Finance Ledger** from the list.

Tip: Click  to add new ledger.

12. Select **Applicable** as **Insurance, Annual Maintenance** and **Depreciation**.

Note:

- **Insurance:** If insurance is applicable for the asset item select Insurance check box.
- **Annual Maintenance:** If AMC is applicable for the asset item, select Annual Maintenance check box.
- Both options can be selected for the asset item at the same time.

13. Click .

The asset item is created successfully.

Click  to exit from the dialog box.

Note: Please refer Common Operations to work with the Edit, Delete, Print, Refresh and Close operations.

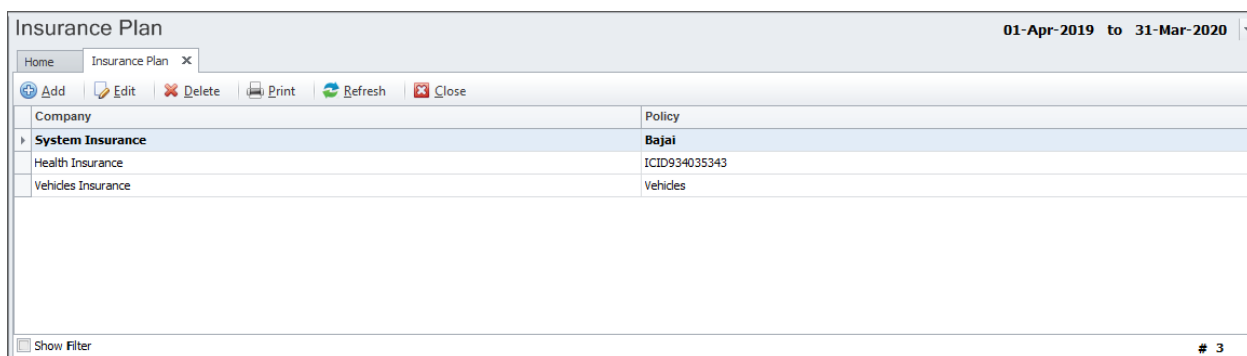

3.3. Insurance Plan

Defining Company and Policy details which provides insurance for goods.

To add insurance plan:

1. Click **Fixed Asset** menu.
2. In the left pane, under **Masters**, click  to expand *Masters* options.
3. Click **Insurance Plan**.

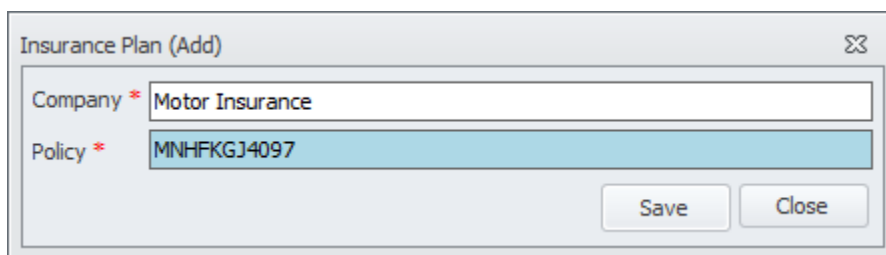

The *Insurance Plan* view screen is displayed.

The screenshot shows the 'Insurance Plan' view screen. At the top, there is a header bar with the title 'Insurance Plan' and a date range '01-Apr-2019 to 31-Mar-2020'. Below the header is a toolbar with buttons for 'Add', 'Edit', 'Delete', 'Print', 'Refresh', and 'Close'. The main area is a table with two columns: 'Company' and 'Policy'. The table contains three rows: 'System Insurance' with 'Bajaj', 'Health Insurance' with 'ICID934035343', and 'Vehicles Insurance' with 'Vehicles'. At the bottom left, there is a 'Show Filter' checkbox, and at the bottom right, there is a page number '# 3'.

4. Click  in the *Insurance Plan* view screen.

The *Insurance Plan (Add)* dialog box is displayed.

The screenshot shows the 'Insurance Plan (Add)' dialog box. It has two input fields: 'Company *' with the value 'Motor Insurance' and 'Policy *' with the value 'MNHFKGJ4097'. Both fields are marked with a red asterisk, indicating they are mandatory. At the bottom right, there are 'Save' and 'Close' buttons.

Note: The fields which are marked in * red are mandatory.

5. Type **Company and Insurance Policy** in the respective boxes.

6. Click .

The asset insurance is created successfully.

Click  to exit from the dialog box.

Note: Please refer Common Operations to work with the Edit, Delete, Print, Refresh and Close operations.

3.4. Vendor

Vendor is a person who promotes or exchanges goods or services for money. This Vendor feature allows you to maintain the vendor details of asset.

To add vendor:

1. Click **Fixed Asset** menu.
2. In the left pane, under **Masters**, click  to expand *Masters* options.
3. Click **Vendor**.

The *Vendor* view screen is displayed.

7. Click  on the button to generate the report.

6. Options

Following are the vouchers used to record all the options done in asset. These vouchers are specific only for asset.

- Map Asset Ledger
- Import Asset
- Map Locations
- Configure

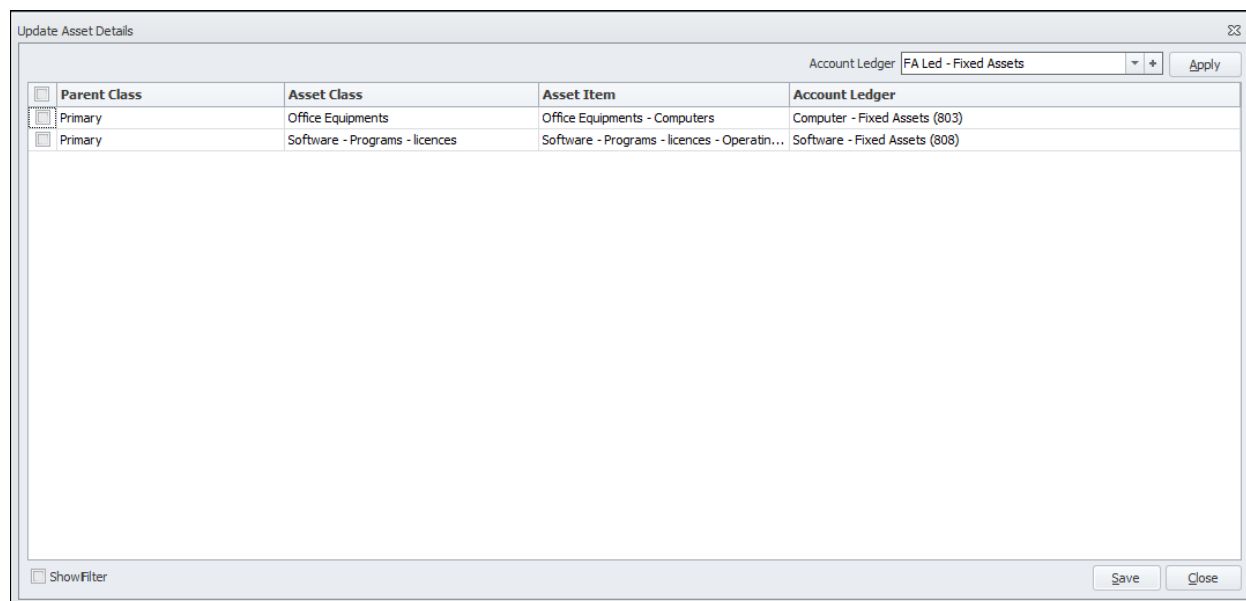

6.1. Map Asset Ledger

Different asset items are mapped into the different account ledger.

To set opening balance for asset item:

1. Click **Fixed Asset** menu.
2. In the left pane, under **Options**, click  to expand the Options.
3. Click **Map Asset Ledger**.

The *Update Asset Details* screen is displayed.

Parent Class	Asset Class	Asset Item	Account Ledger
Primary	Office Equipments	Office Equipments - Computers	Computer - Fixed Assets (803)
Primary	Software - Programs - licences	Software - Programs - licences - Operatin...	Software - Fixed Assets (808)

4. Select **Account Ledger** from the drop down list.

- Click  to save the asset details. (Or)

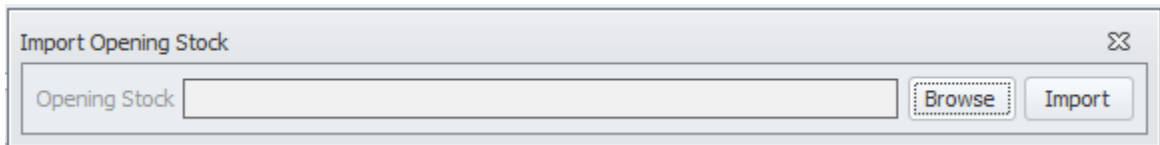

Click  to prevent from the saving.

6.2. Import Opening Stock

Import the asset details by using some format.

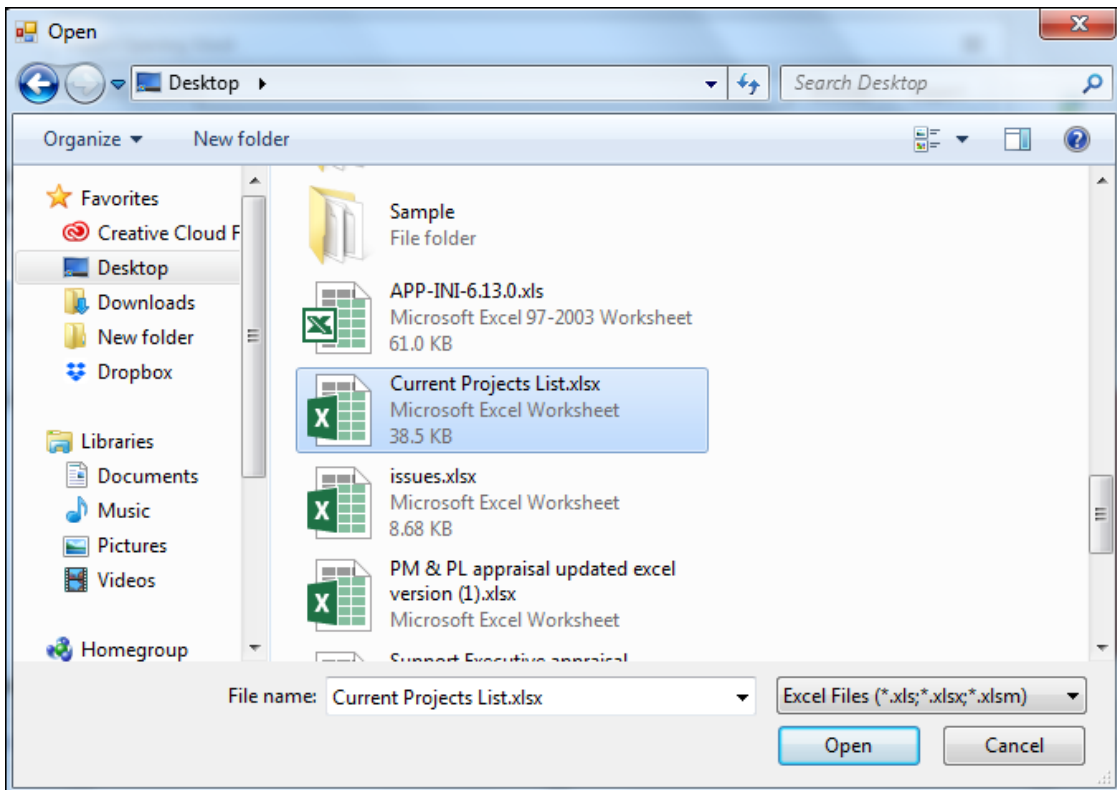

- Click **Fixed Asset** menu.
- In the left pane, under **Options**, click  to expand the Options.
- Click **Import Opening Stock**.

The *Import Opening Stock* dialog box is displayed.

- Click  to browse the file from the local system.

The *File Upload* dialog box is displayed.

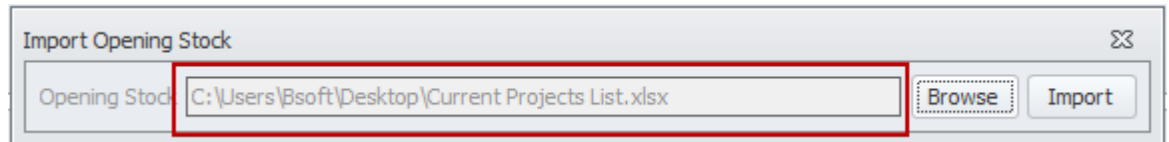

a. Select a file from the local system.

b. Click  to open the file to upload. (Or)

Click  to close the page.

The file is opened successfully.

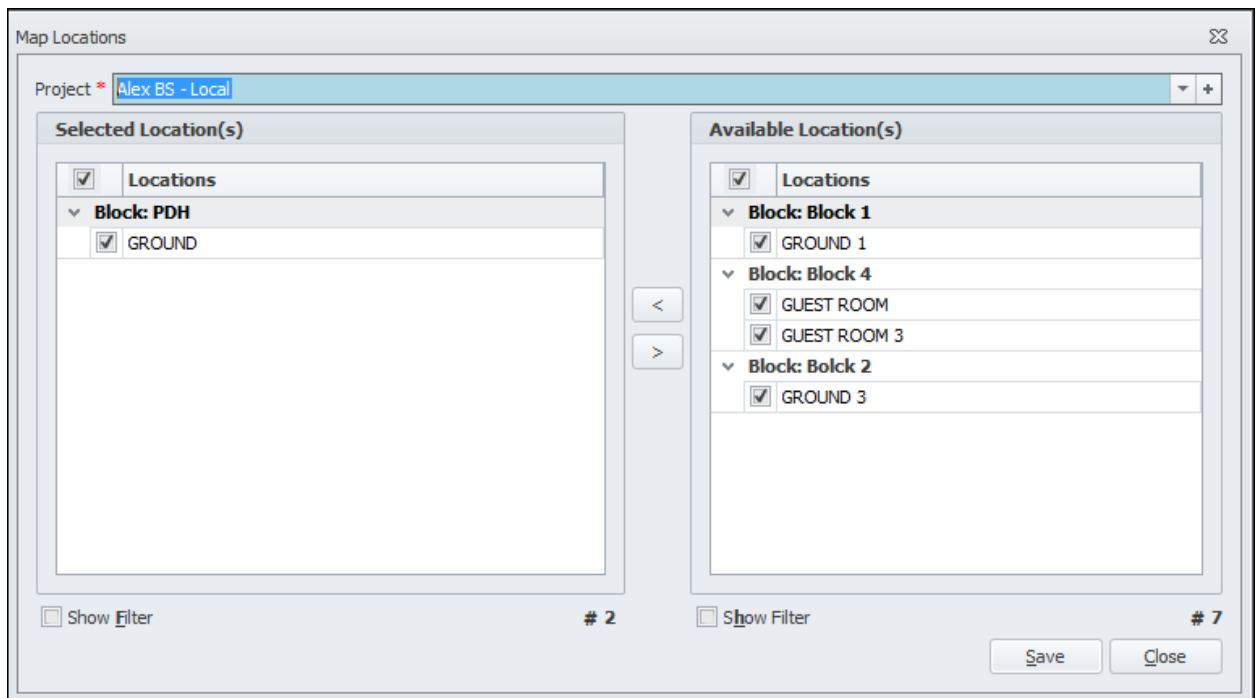

5. Click  to import the file.

6.3. Map Locations

It helps you to map the location from one block to another block.

1. Click **Fixed Asset** menu.
2. In the left pane, under **Options**, click  to expand the Options.
3. Click **Map Locations**.

The *Map Locations* dialog box is displayed.

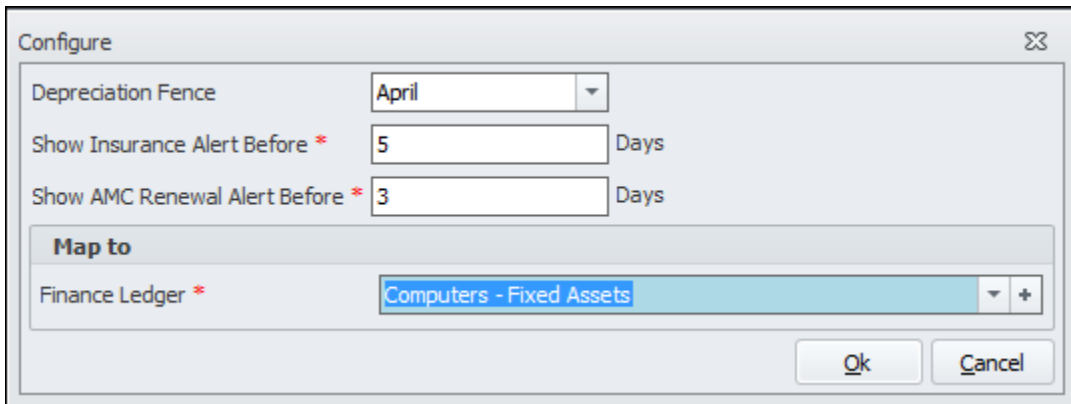

4. Select the **Project** from the drop down list.
5. Click  move to the Available Location.
6. Click  move to the Selected Location.
7. Click  to save the map locations details. (Or)
Click  to prevent from the saving.

6.4. Configure

1. Click **Fixed Asset** menu.
2. In the left pane, under **Options**, click  to expand the Options.
3. Click **Configure**.

The *Configure* dialog box is displayed.

The screenshot shows a 'Configure' dialog box with the following fields and controls:

- Depreciation Fence:** A dropdown menu currently showing 'April'.
- Show Insurance Alert Before *:** A text input field containing '5', followed by the label 'Days'.
- Show AMC Renewal Alert Before *:** A text input field containing '3', followed by the label 'Days'.
- Map to:** A section header for the following field.
- Finance Ledger *:** A dropdown menu currently showing 'Computers - Fixed Assets'.
- Buttons:** 'Ok' and 'Cancel' buttons located at the bottom right of the dialog.

4. Select **Depreciation Fence** from the drop down list.
5. Enter no of days **Show Insurance Alert Before** and **Show AMC Renewal Alert Before** in the text boxes.
6. Select **Finance Ledger** from the drop down list.
7. Click  to save the Configure details. (Or)
Click  to prevent from the saving.

7. Reports

Following are the stock reports:

- Purchase Register
- Receive Register
- Insurance Register
- AMC Register
- Transfer Register
- Fixed Register
- Location Register
- Register Summary
- In Kind Register
- Fixed Asset Summary
- Chart of Assets
- Sales / Disposal / Donation Register

7.1. Report Common Operations

The following operations are common to work with all the reports of Acme.erp.

Report Toolbar

To customize the properties of a report:

1. Click  (**Customize Property**) on the report toolbar.
The *Report Filter Criteria* box is displayed.
2. Customize the properties of the report.

3. Click **Ok**.

The report properties are customized successfully. (Or)

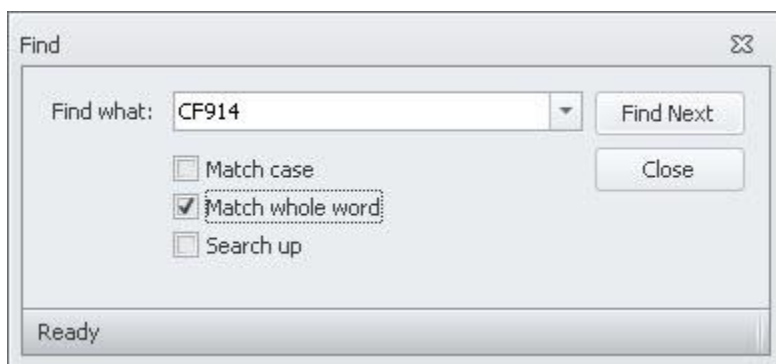

Click **Cancel** to prevent the action.

Note: If the **report customization** is done for a report the same customization is applied for all reports. The user is allowed to change the report customization if necessary.

To search for data:

1. Click  (**Search**) on the report toolbar.

The *Find* box is displayed.

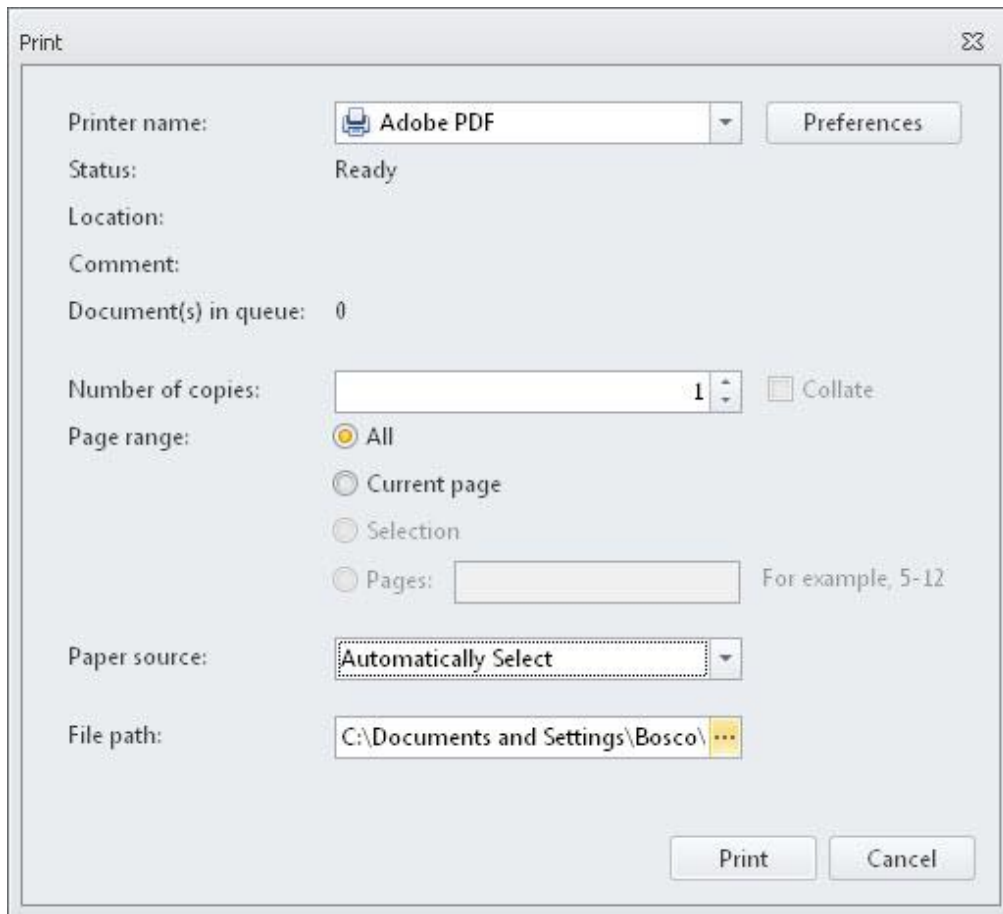

2. Enter the search item in **Find what** box.
3. Select **Match case**, if you want to match the case as entered.
4. Select **Match whole word**, if you want to match the entire word as entered.
5. Select **Search up**, if you want to search for the data upward.
6. Click **Find Next** to go to the next matched data.
7. Click **Close** or  to exit the *Find* box.

To print report:

1. Click  (**Print**) on the report toolbar.

The *Print* dialog box is displayed.

2. Select **Printer name** from the list.
3. Enter or select **Number of copies** from the list.
4. Click **Page range** as **All**, **Current page**, **Selection** or **Pages**.
Based on the page range selection the pages are printed.
5. If you click **Page range** as **Pages**, enter page range in the box. (*Example: 5-12*)
6. Select **Paper source** from the list.
7. Select **File path**.

8. Click **Print** to print the generated report. (Or)
Click **Cancel** to prevent from printing the report.

To quick print the report:

- Click  (**Quick Print**) to print the report.

To increase/decrease the view of the report:

1. Click  (**Zoom Out**) to have the distant view of the report.
2. Click  (**Zoom In**) to have the closest view of the report.
3. Enter or select the value from the list () to have the specific view of the report.

To navigate between the pages:

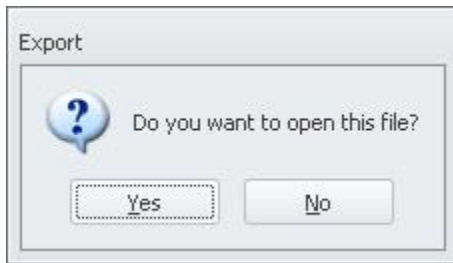

1. Click  (First Page) to go the first page of the report.
2. Click  (Previous Page) to go the previous page of the report.
3. Click  (Next Page) to go the next page of the report.
4. Click  (Last **Page**) to go the last page of the report.

To export report:

1. Click the down arrow  (**Export Document**) on the report toolbar. The possible formats are listed down.
2. Select the format that you want to export the report to.
The file *Export Options* box is displayed.
3. Fill in the details in the appropriate boxes.
4. Click **OK**.
The *Save As* dialog box is displayed.
5. Enter **File name** in the box.

6. Click **Save**.

The *Export* box is displayed to confirm whether to open the file.

7. Click **Yes** to open the file.

The file is opened successfully. (Or)

Click **No** to prevent from opening the file.

To refresh report:

- Click  (**Refresh**) on the report toolbar to refresh the report page.

To close report:

- Click  (**Close**) to close the report.

7.2. Purchase Register

Purchase Register report is generated to give a detailed report on asset purchased by Project within specific period of date in an accounting period.

To generate purchase register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.

3. Customize the properties of the report.
4. Click 

The *Purchase Register* report is generated successfully.

Note: Refer Report Common Operations.

7.3. Receive Register

Receive Register

To generate receive register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.
2. Click **Stock > Receive Register**.
3. Customize the properties of the report.

4. Click 

The *Receive Register* report is generated successfully.

Note: Refer Report Common Operations.

7.4. Sales Register

To generate purchase register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.
2. Click **Stock > Sales Register**.
3. Customize the properties of the report.

4. Click 

The *Sales Register* report is generated successfully.

Note: Refer Report Common Operations.

7.5. Disposal Register

To generate disposal register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.

2. Click **Stock > Disposal Register**.
3. Customize the properties of the report.
4. Click 

The *Disposal Register* report is generated successfully.

Note: Refer Report Common Operations.

7.6. Insurance Register

To generate insurance register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.
2. Click **Stock > Insurance Register**.
3. Customize the properties of the report.
4. Click 

The *Insurance Register* report is generated successfully.

Note: Refer Report Common Operations.

7.7. AMC Register

To generate AMC register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.
2. Click **Stock > AMC Register**.
3. Customize the properties of the report.
4. Click 

The *AMC Register* report is generated successfully.

Note: Refer Report Common Operations.

7.8. Transfer Register

To generate transfer register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.
2. Click **Stock > Transfer Register**.
3. Customize the properties of the report.

4. Click .

The *Transfer Register* report is generated successfully.

Note: Refer Report Common Operations.

7.9. Fixed Register

To generate fixed register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.
2. Click **Stock > Fixed Register**.
3. Customize the properties of the report.

4. Click .

The *Fixed Register* report is generated successfully.

Note: Refer Report Common Operations.

7.10. Location Register

To generate location register report:

1. Click **Reports > Asset**.
The *Report* page is displayed.
2. Click **Stock > Location Register**.

3. Customize the properties of the report.

4. Click .

The *Location Register* report is generated successfully.

Note: Refer *Report Common Operations*.

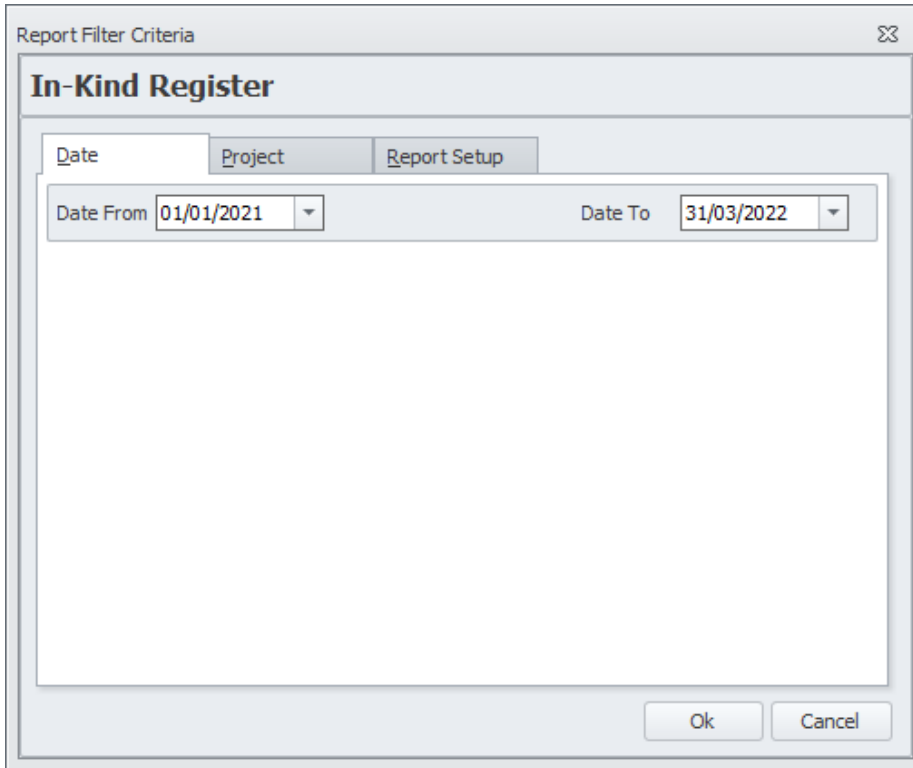

7.10.1. In-Kind Register

Admin can generate the In-Kind (Donor) report of the organization.

To generate In-kind report:

1. In **Reports** module > click **Fixed Deposit** menu > **In-Kind Register**.

The *Report Filter Criteria* pop-up is displayed.

Report Filter Criteria

In-Kind Register

Date Project Report Setup

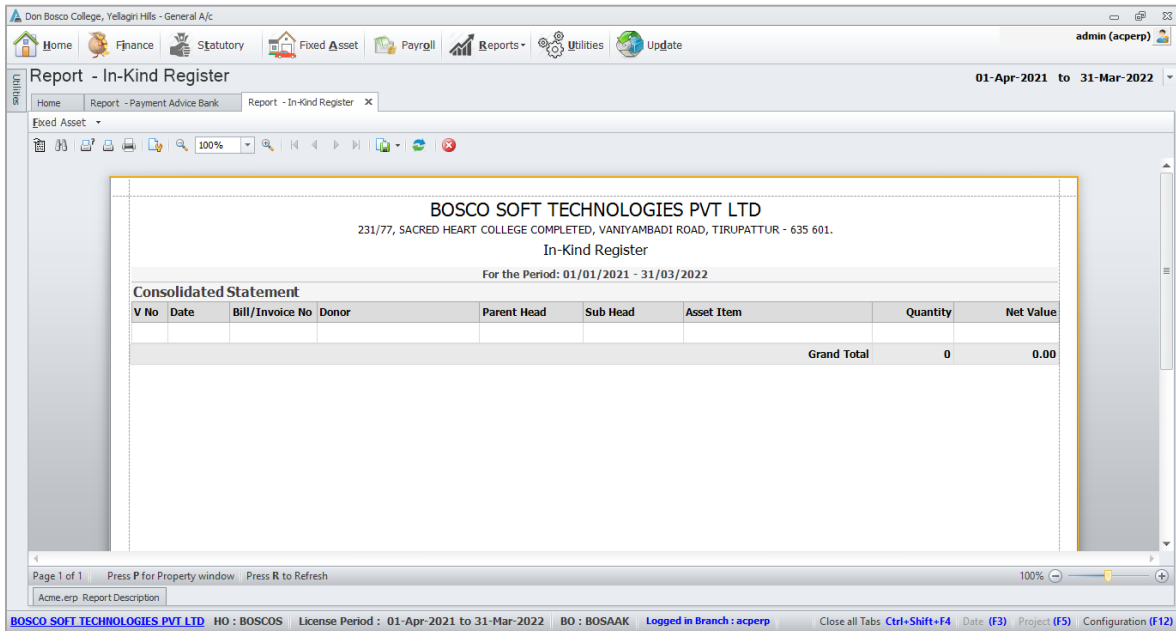

Date From 01/01/2021 Date To 31/03/2022

Ok Cancel

2. In **Date** tab, select **Date From** and **Date To** from the calendar dialogboxes.
3. In **Project** tab, select **Project** checkbox. (Multiselection)
4. Define **Report Setup**.

- Click  to generate the In-kind report.

The *In-Kind* report is generated.

Note: Please refer the Common Operations to working with report.

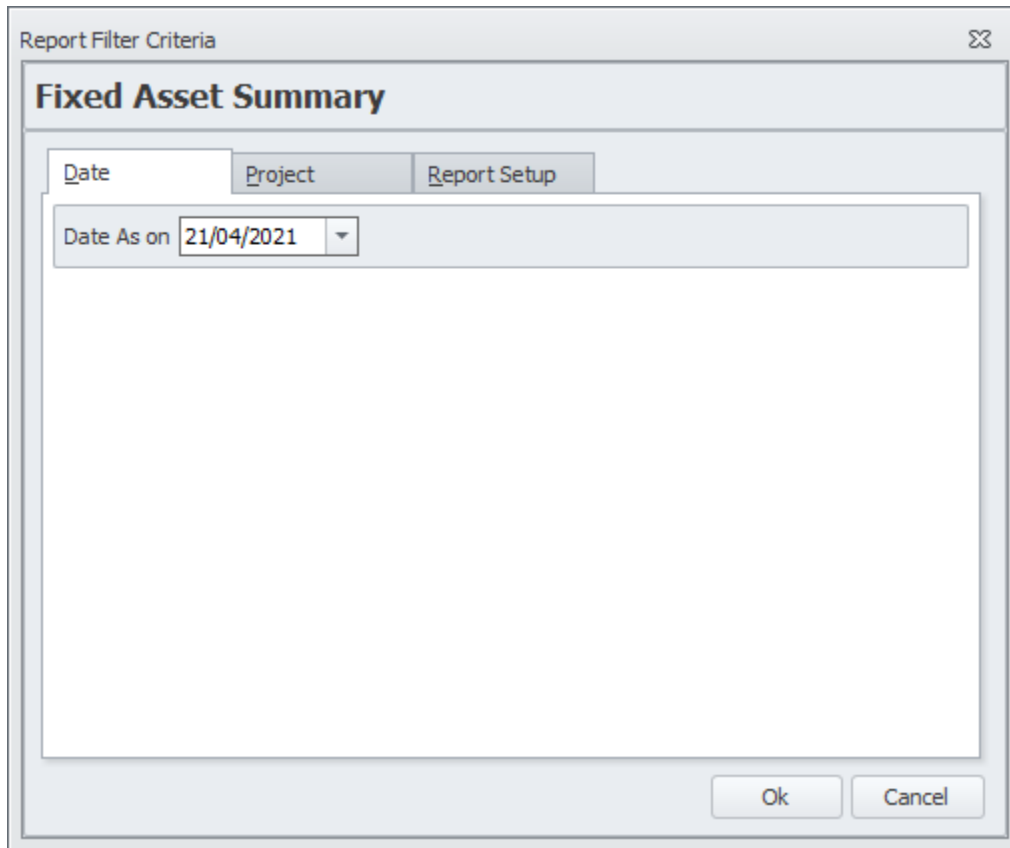

7.10.2. Fixed Asset Summary

Admin can generate the summary of the fixed asset report.

To generate fixed asset summary report:
