1. Introduction

Payroll is the sum of all financial records of salaries which is paid to the employee or wages in an organization/company during a week, month or period. Acme.erp Payroll feature facilitates you to process payroll of an organization/ company for a particular period of time. Reports are generated based on the available payroll details.

Following are the Payroll features,

- Master
 - Create
 - Payroll Group
 - Staff
 - Payroll Component
 - Loan
- Transaction
 - Issue Loan
- Options
 - Open
 - Delete
 - Lock
 - Component Allocation
 - View Payroll

Following is the flow of payroll process:

- Master Creation
- Components
 - Payroll Component

- Component Allocation
- Issue Loan
- Process Payroll
- View Payroll
- Post Voucher
- Reports

2. Master Creation

2.1. Create New Payroll Month

Creating payroll for a particular period of time. While creating payroll for the first time you need to set Period From and Period To, next time when you create a payroll automatically the payroll is imported from the previous payroll.

To create payroll for the first time:

1. Click **Payroll** menu.
2. In the left pane, under **Master**, click  to expand *Masters* options.
3. Click **Create New Payroll Month**

The *Create payroll* page is displayed.

Note: By default payroll is created for the current month. Period From is the starting date of current month, Period to is the ending date of current month. If necessary, change the Payroll for month.

- Click .

The payroll month is created successfully.

- Click  to exit from the dialog box.

Payroll creation for the second time

- Click **Payroll** menu.
- In the left pane, under **Master**, click  to expand *Masters* options.
- Click **Create**.

The *Create Payroll* dialog box is displayed.

The image shows a 'Create Payroll' dialog box. It has a title bar with 'Create Payroll' and a close button. The main content area is titled 'Import Payroll from Oct - 2017'. Below the title, there are three dropdown menus: 'Payroll For' (set to 'November - 2017'), 'Period From' (set to '01/11/2017'), and 'Period To' (set to '30/11/2017'). At the bottom right, there are two buttons: 'Import' and 'Close'.

- By default, payroll **Period From** and **Period To** date is greater than the previous payroll Period From and Period To date.
- Click .
- The existing payroll details are imported successfully for the current month payroll.
- Click  to exit from the dialog box.

2.2. Payroll Group

Staffs are categorized into groups like: Daily Wages, Teacher, etc., these groups are named as payroll group. Based on the payroll group payroll is processed for the staff. This feature allows you to maintain all payroll groups of the staffs. While adding staff details payroll group also selected for the staff.

To add payroll group:

- Click **Payroll**.

2. In the left pane, under **Master**, click  to expand *Masters* options.
3. Click **Payroll Group**.

The *Payroll Group View* screen is displayed.

4. Click  in the *Payroll Group View* screen.

The *Payroll Group (Add)* dialog box is displayed.

5. Enter **Group** in the box.
6. Click .
7. Click  to exit from the dialog box.

The payroll group is saved successfully.

2.3. Staff

Managing staff details to process payroll. Staff details can be imported as MS Excel file format using Import option in this feature.

To add staff:

1. Click **Payroll** menu.
2. In the left pane, under **Master**, click  to expand *Masters* options.

3. Click **Staff**.

The *Staff* view screen is displayed.

The screenshot shows the 'Staff' view screen with a menu bar at the top containing: Home, GST Policy, Legal Entity, Project, Bank Accounts, Report - GST Payment Challan, Ledger, Voucher - Receipt, Payroll Home, Group, and Staff. Below the menu bar is a toolbar with icons for Add, Edit, Import, Delete, Print, Refresh, and Close. A 'Date As On' dropdown is set to 25/10/2017. There are radio buttons for 'In Service', 'Out Of Service', and 'All'. The main area contains a table with the following data:

Staff Code	Staff Name	Gender	Age	Date of Birth	Date of Joining	Group	Designation	Scale of Pay	Account Number	Leaving Date	YOS
1	Geetha R	Female	25	11/01/1993	01/01/2017	Teaching...	Teacher	2,000.00	2020335689		0.00
2	Shini F	Female	25	09/02/1993	06/06/2017	Teaching ...	Teacher	5,000.00			0.00

4. Click in the *Staff View* screen.

The *Staff (Add)* dialog box is displayed.

The screenshot shows the 'Staff (Add)' dialog box with two tabs: 'Personal Information' and 'Pay Info'. The 'Personal Information' tab is active, showing the following fields:

- b. If **Process Type** is selected as **Deduction**, following are the Default Value: Fixed Value, Link Value, Equation and Range.
- c. If **Process Type** is selected as **Text**, following is the Default Value: Link Value.

7. Based on the **Type** selection the **Default Value** is displayed. Select **Default Value** from the list.
- If **Fixed Value** is selected from the list, enter **Fixed Value** in the box.
 - If **Link value** is selected from the list, select **Link Value** from the list.
 - If **Equation** is selected from the list, click .

The *Construct Formula* dialog box is displayed.

The *Construct Formula* dialog box is shown. It has a title bar with a maximize button. The main area is divided into two panes: **Components** and **Operators**. The **Components** pane contains a list of components: <BASIC>, <DA>, <DEDUCTIONS>, <GROSS WAGES>, <HRA>, <NETPAY>, and <PF>. The **Operators** pane contains a list of operators: (,), +, -, *, and /. Below the panes, there is a **Formula** dropdown menu and a **Basic =** text box. A note at the bottom states: "Note: Double click on the component/operator to insert into the active control." There are three buttons at the bottom right: **Valid**, **Save**, and **Close**.

- Select **Condition 1/Formula/Condition 2** from the list.
 - If **Condition 1** is selected, double-click on the **Component/Operator** to insert component/operator in the **If** box, select **Operators** from list, enter **Value** in the box. Double-click on the **Component/Operators** to enter formula in **Basic** box.

The *Construct Formula* dialog box is shown with **Condition 1** selected in the **Formula** dropdown menu. The **Components** pane contains a list of components: <GROSS WAGES>, <HA>, <HRA>, <INC>, <INC STAR>, <MA>, and <NETPAY>. The **Operators** pane contains a list of operators: (,), +, -, *, and /. Below the panes, there is an **If** box containing <BASIC>, an equals sign (=), and a text box containing 10000. Below the **If** box, there is a **Basic =** text box containing <BASIC>-<HRA>. A note at the bottom states: "Note: Double click on the component/operator to insert into the active control." There are three buttons at the bottom right: **Valid**, **Save**, and **Close**.

2. If **Condition 2** is selected, double-click on the **Component/Operator** to insert component/operator in the **If** box, select **Operators** from list, enter **Value** in the box. Double-click on the **Component/Operators** to enter formula in **Basic** box. In Else also, double-click on the **Component/Operators** to enter formula in **Basic** box.

3. If **Formula** is selected, double-click on the **Component/Operator** to insert component/operator in the **Basic** box.

Note: While constructing formula, if any fields are left empty, **Formula is empty** message is displayed.

- ii. Click  to check whether the constructed formula is valid or not valid.

If the constructed formula is valid, formula is valid message is displayed.

(Or)

The formula is invalid message is displayed.

- iii. Click .

The formula is added successfully. (Or)

Click  to prevent from adding formula.

- d. If **Range** is selected from the list, click .

The *Construct Formula* dialog box is displayed.

The dialog box titled "Construct Formula" contains a section "Define Range for Basic Pay". It features a dropdown menu set to "BASIC", and input fields for "Min" (2000), "Max" (5000), and "Slab" (1000). An "Add" button is to the right of the "Slab" field. Below these fields is a table with the following headers: "Component", "Min.Value", "Max.Value", and "Slab". The table body is currently empty. At the bottom right of the dialog are "Ok" and "Cancel" buttons.

Component	Min.Value	Max.Value	Slab

- i. Select **Component** from the list.
- ii. Type **Min** (Minimum Amount), **Max** (Maximum Amount) and **Slab**(Slab amount: Specific amount which will be deducted for the staff while processing payroll)

- iii. Click .

The constructed range formula is saved successfully.

The dialog box titled "Construct Formula" contains a section "Define Range for Basic Pay". It has input fields for "BASIC", "Min" (5001), "Max", and "Slab", followed by an "Add" button. Below these is a table with the following data:

Component	Min.Value	Max.Value	Slab
BASIC	2000	5000	1000

At the bottom of the dialog are "Ok" and "Cancel" buttons.

Note: To add range formula for the same component enter Max amount and Slab amount in the boxes and click Add. The created range formula can be edited and deleted.

- iv. Click .

The formula is saved successfully. (Or)

Click  to prevent from adding range formula.

8. Select **Rounded Option** as **Ceiling** or **Floor** or **Rounded to Next** or **Previous Integer** or **None**.

Note: Under **Rounded Option** area, examples are given for each rounded option.

9. Click .

The payroll component is saved successfully.

10. Click  to exit from the dialog box.

To add payroll component as text type: (Sample: Name)

1. Click **Payroll** menu.

- In the left pane, under **Master**, click  (**Expand**) to expand *Masters* options.
- Click **Payroll Component**.

The *Component View* screen is displayed.
